

Who are you working for? Do you recall anything from history?
Monopoly on broadcast and other media will destroy any semblance of
freedom left in this country. When there is no competition, will
the government step in to dictate media policies? Is that the
intent? If you can't think of anything better to do than this, you
should retire. You are not serving the public by permitting single
corporate ownership of our media. You are serving the corporate
ownership and we all know why that is. \$\$\$\$\$\$\$\$\$\$
